

Welcome to Downtown Detroit! We are pleased to offer service on the Detroit People Mover for the 2016 National Veterans Golden Age Games, which will be a safe, quick and effective means of transportation between your host hotel and other venues.

People Mover trains arrive every 3-4 minutes to deliver patrons in climate-controlled comfort. Our Transit Police provide not only a watchful presence, but also are a helpful resource should you need assistance.

Handicap accessibility is available via elevators and escalators at all stations.

USING PEOPLE MOVER FAST PASS TO RIDE

With a People Mover Fast Pass, it can only be swiped through a station fare gate one time in a 15-minute interval. Once it has accepted your fare at that station, it will not register again at that location for the above period. You can, however use the pass at any other station.

- Place the pass in your right hand – black stripe facing you.
- Step up to the fare reader. Insert the pass at the rear and swipe it straight forward.
- Listen for the beep. The fare gate monitor says “Thank You.”
- Now you may move through the turnstile.
